

CHIME

SURGEON CLINICAL
EXCHANGE APP

chime

Unlock the Power of Clinical Exchange.

Chime is Advita Ortho's secure clinical exchange designed for surgeons to connect, collaborate and learn, turning shared expertise into confident clinical decisions. Powered by Active Intelligence®, Chime brings real-world experience, case discussion and peer insight together in one trusted community.

NEW AI-DRIVEN CAPABILITIES AND UPDATES

Gps Shoulder Notifications

Receive real-time notifications when your shoulder reconstruction is ready for planning and navigation.

Redesigned User Experience

Clean, intuitive interface that is optimized for faster navigation and engagement

AI-Powered Case Posting

Create posts faster using AI dictation technology and share your cases with attached images, videos, and PDFs to gather feedback from colleagues worldwide.

Web Browser Access

Participate in discussions from desktop www.chime.advita.com
